**Hood SR 600**

# Hood SR 600

An innovative and comfortable hood series with multi-adjustable head harness, including an airflow deflector that offer the highest respiratory protection level, with an excellent fit and comfort.

SR 600 offers respiratory, head and shoulder coverage, across a multitude of environments. The lightweight SR 601 and SR 602 gives an excellent protection against a wide range of contaminants, in many industrial sectors.

The hoods offer an optimum breathing protection when used with Sundstrom's SR 500, SR 700 or SR 500 EX fan units, equipped with our extensive range of filters. The SR 601 and SR 602 hoods provide exceptional high protection because of the pressure generated in the hood, this even when the user have facial hair.

The hood and fan unit combinations can be used as an alternative to tight fitting masks, particularly in situations where the work is intensive, hot or of long duration.

## Hood SR 601

is manufactured from a non-woven material with fully welded seams, giving excellent protection against particles and liquids.

The non-woven neck seal provides high levels of both comfort and safety assurance.

## Hood SR 602

is manufactured from a strong laminated fabric. It has welded and taped seams protecting not only against particles, but additionally offering an exceptional barrier against organic and inorganic chemicals.

An easily adjustable neck seal in cotton, offers a higher level of comfort and protection.
